**The Future of Dentistry  
is sponsored by**

In  
**Austin, TX**  
**March 2, 2012**

Featuring  
**Dr. Mark Duncan**

PRESENTED BY

"LVI Global (code # 208412) is designated as an approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry. The current term of approval extends from June 1, 2011 to May 31, 2015."

**CANCELLATION POLICY**  
A full refund will apply to cancellations with 3 or more business days notice. Less than 3 working days notice, will result in a "no" refund.  
**AURUM CERAMIC** provides services that are discussed in this seminar.

# Welcome

## Are you prepared for the future of dentistry or are you still stuck in the past?

- Are you still accepting insurance assignment?
- Are you wasting a fortune on advertising?
- Do you still think selling dentistry means educating your patients about what they need?
- Do you still think that getting more new patients is the key to making more money?

## In just one day we'll give you the solution to these issues and share every detail on how to become more profitable and have more fun doing the kind of dentistry you most enjoy. In fact you'll discover:

- How to easily implement the best procedures for diagnosis, treatment planning and communication resulting in bigger cases and more cosmetic cases.
- How to break through the hype about occlusion with a simple, predictable approach that will allow you to diagnose physiologic versus pathologic occlusion with total confidence.
- Cutting-edge use of a TENS bite including a live demonstration.
- What becoming a 'mouth doctor' means to both your career and your patient's lives and why it's so crucial.
- The inside information about fees and insurance that nobody talks about.
- The difference between success and failure and why success isn't such a mystery.
- The 'true value' of your services and what it means to your practice.

## Are you tired enough of being stuck where you are to finally do something about it?

**We've got the information.  
The rest is up to you.**

## SPEAKER

### Mark Duncan

Dr. Duncan received his college and post-graduate studies at the University of Oklahoma culminating with a D.D.S. degree in 1995. Following Dental -, Dr. Duncan vigorously pursued continuing education to grow past what was taught in dental schools; twice being recognized as the leader in the State for Continuing Education. He completed the surgical and prosthetic sections with the Misch Implant Institute earning a Fellowship with the Institute as well as holding Diplomate status with the International Congress of Oral Implantologists. He has also earned the Fellowship with the Academy of General Dentistry in the shortest time period allowed by the Academy. He considers his real advance in education to have started with his journey through the Las Vegas Institute where he began to explore and understand the link between the mouth and the rest of the body. In 2002 he started a scratch practice in Oklahoma City focused on cosmetic and comprehensive restorative neuromuscular dentistry.

He is a graduate of the world-renowned Las Vegas Institute for Advanced Dental Studies (LVI), and was given the honor of being a clinical instructor for the institute in 2002. He teaches dentists from all over the world in the latest treatments for cosmetic dentistry, full mouth reconstruction, and neuromuscular occlusion. He was elected to the Board of the IACA (International Association of Comprehensive Aesthetics) last year; among the most progressive and dynamic dental organizations in dentistry. He also belongs to many dental organizations and has served as the Editor for the Oklahoma Academy of General Dentistry and on the Board of the Oklahoma County Dental Society as the Program Chair. He has lectured on aesthetics, occlusion, CAD-CAM technology, and practice management nationwide and serves as development consultant to several dental manufacturing companies.

In 2007 Dr. Duncan was invited to join the full time faculty at the Las Vegas Institute and has moved to Las Vegas where he teaches with the Institute and maintains a faculty practice. Together with the faculty at the Las Vegas Institute, he is involved in teaching advanced esthetic and occlusal concepts along with practice management concepts to students from around the world.

## OBJECTIVES

*Upon completion of this conference, through lecture and discussion, participants should be able to:*

- *Identify appropriate procedures for smile design and when to use them.*
- *Define the options for porcelain restorations and the preparation and temporization necessary to accomplish the restoration.*
- *Implement better cementation techniques and more efficient administering of anesthetics for the patient.*
- *Understand the best procedures for diagnosis and treatment planning and better communication with the patient.*
- *Discuss the parameters for use of transcutaneous electrical neural stimulation.*
