

Silginat®

The Consistency of Alginate... The Properties of Polyvinyl Siloxane

ALL IN ONE MATERIAL!

Excellent results for multiple pours.

The Perfect Alternative to Traditional Alginate!

- Medium viscosity, polyvinyl siloxane with alginate-like consistency.
 - Highly thixotropic. Flows properly under pressure.
 - Superb detail reproduction, high-tear strength.
 - Compatible with most disinfectant materials.
- High dimensional stability. Impressions can be kept for weeks and poured multiple times.

Wide Range of Indications

- Anatomical models, opposing models, temporary crowns and bridges, full dentures and simple removables, orthodontic appliances, nightguards, splints and case study models, whitening trays and much more.

Available in Two Delivery Systems

- **Optimized** 1:1 ratio 38 ml cartridges (the perfect volume for a single full arch or two quadrant impressions)
- 5:1 ratio 362 ml foil packs for the Kettenbach Plug & Press® automatic dispenser (or other mixing machines).

Plug & Press®
Dispenser

Now Available in Strawberry Scent!

Optimal Total Setting Times

- Two minute, 30 second total set time when dispensed in cartridges.
- When dispensed in foil bags, total set time of 3 minutes.
