

What Is The “Natural Look”?

There are many subtle characteristics involved in recreating a life-like smile with dentures. Nature intended teeth to look and feel a certain way. Study someone’s teeth closely and you will see that they are not precisely aligned with each other. They have different shapes and varying lengths. Depending on the person, you will see more or less of their gum as they smile. Overlooking any of these factors can make the difference between a natural-looking denture that compliments the wearer and one that is conspicuously artificial.

All dentures don’t have to look alike. Now, with NaturalLook™ dentures, it’s possible to have a new smile that looks naturally healthy and attractive.

The Best Dentures Go Unnoticed

With dentures, the better the result (that is, the more life-like they appear), the less they will be noticed by people around you. NaturalLook dentures are the most natural you can get because they are designed expressly for you. Personalized NaturalLook full or partial dentures are created based upon your dentist’s in-depth evaluation. Your dentist will record details of your face (including its size, shape, contours and features), the color of your hair, eyes and complexion and your prior dental records. Then your dentures are created using a special process that ensures a comfortable fit and proper function - right away!

Restore Your Beautiful Smile

NaturalLook dentures give you the attractive appearance you’ve always wanted combined with greater chewing comfort. They are made with the same subtle details and color variations that you’ll find in natural teeth. A personalized cosmetic denture can make all the difference in how you look and how you feel about yourself. And, a personalized NaturalLook denture is as close as you can get to the dazzling smile you had before.

NaturalLook Dentures Make It Happen

You’ll be thrilled with your new NaturalLook Smile. When you choose NaturalLook dentures, the result will be more than just an attractive denture that enhances your appearance. You’ll be able to smile again with confidence. Give yourself a new look that will keep you smiling for years. Ask your dentist what might best satisfy your needs.
