

NaturalLook™

Dentures that look as good as they perform!

Give your patients a life-like, confident "NaturalLook Smile". Every NaturalLook denture takes into account the subtle variations of natural dentition and contours of natural tissue that make each patient unique. They accurately capture the patient's "personality" (age, sex, skin tone, facial features), smile lines, buccal corridors and embrasures.

Fabricated for Perfect Fit and Function

- Constructed using your preferred Ivoclar or Dentsply teeth.
- Every NaturalLook full or partial denture is processed using the SR-Ivocap System.
- Ensures dentures that are more fracture-resistant and tissue compatible (no skin contact with monomer).
- No pressure points or raised bites.
- Fewer post-insertion adjustments means fewer patient visits, less chair time and comfortable dentures that result in happier patients.

Can be Crafted with Accu-Liner

- If desired, your full or partial denture can be done using the Accu-Liner technique.
- Results in absolutely correct occlusal plane and incisal length.
- Bite rims much easier as only simple bite is required.

100% Guaranteed

Every new full or partial denture Aurum Ceramic/Classic produces for you carries a TWO (2) YEAR guarantee against defects in material and craftsmanship* - FREE OF CHARGE! If you prefer, you can extend that protection for an additional three years for a small extra fee.

Put us to the Test
