

Titanium Frameworks –

Lightweight, Biocompatible and Corrosion Resistant

Titanium – Advanced. Tested. Proven.

- Lightweight (over 35% lighter than chrome castings and more than four times lighter than gold alloys). Outstanding patient comfort!
- High strength and rigidity comparable with other noble or high noble dental alloys.
- Totally biocompatible (no allergic reactions). Excellent corrosion resistance.
- Precision fit. Clasps can be placed in deeper undercuts (more esthetic restoration).
- Low thermal conductivity (no hot or cold temperature shock)
- No metallic taste.

Innovative Solutions from Aurum Ceramic

- Every titanium framework custom crafted utilizing the creativity and expertise of our Cast Partial Team™ of experienced technical specialists.
- Insightful case planning and consulting in conjunction with our exclusive Computerized Cast Partial Design system.
- Every framework x-rayed for imperfections as part of our extensive quality control systems (actual x-ray sent back along with case).

Superb Service On Every Case

- Always ready to take on your special or custom requirements.
- Fast 72 hour in-laboratory turnaround on request.
- All frameworks guaranteed for a full FIVE (5) YEARS against defects in material or craftsmanship – FREE OF CHARGE!
