

Mucopren[®] soft

Permanently soft polyvinylsiloxane denture reline material

Patented

Exclusive patented adhesive:
long-term bonding to the
denture

Versatile

Translucent addition-curing
silicone for direct and indirect
techniques

Sealed

Permanently soft with a sealed
hydrophobic surface

Mucopren® soft

Easy to use in the dental office or in the laboratory

First step: Prepare the denture either chairside or in the laboratory

In the dental office: Direct technique (chairside)

In the laboratory: Use the indirect technique

Last step: Finish the denture, for both techniques, direct and indirect

28105 Mucopren soft basic set
14203 Mucopren Adhesive 10mL
15687 Mucopren soft refill
2 X 50mL, 10 mixing tips

Mucopren soft basic set

50mL Mucopren soft
50mL Mucopren silicone sealant
10mL Mucopren Adhesive
7 Mixing tips for Mucopren soft
20 Mixing tips for Mucopren silicone sealant
1 Brush holder
20 Disposable brushes
Additional accessories for finishing

Advantages of the product:

- Extremely firm bond to acrylic denture due to the newly developed Mucopren Adhesive.
- Unique type of sealing using Mucopren silicone sealant in cartridges.
- The smooth, hydrophobic silicone surface impedes bacteria settling and staining.
