

Auxiliaries (continued)

Separating Abrasive Strips

Separating Abrasives strips are used to reduce and/or shape the interproximal area. Each strip is made of durable diamond abrasive which has been electronically bonded to surgical grade steel base so strips resist stretching, breaking and corrosion. Strips are .003" thick and come in fine, medium or coarse in 4mm, 6mm and 8mm. (10 per pack)

Size	Fine	Medium	Coarse	Double-Sided Medium
4mm	106-220	106-221	106-222	106-221D
6mm	106-223	106-224	106-225	106-224D
8mm	N/A	106-227	106-228	106-227D

Abrasive Strip Holder

Holds strips firmly so better control is maintained during teeth shaping.

• 106-215 (1 holder)

Arch Measurement Guide

Designed for accurate arch length measurement.

• 633-015

Educational/Cephalometric

Tracing Kit

All the materials needed to accurately diagnose and analyze cephalometric x-rays. Kit contains: ceph protractor, ceph triangle, tracing pencil, pencil sharpener, red, green, blue and white pencils, eraser, clear removable tape and 100 sheets of tracing paper. • 633-012

Protractor and Template

Unique combination of protractor and tooth template for accurate cephalometric analysis. • 633-013

Flexible White Rulers

Convenient measuring guide for models to help determine the size/type of archwires or appliances that are needed. Features 0 to 150mm in 1mm increments, and flexibility allows you to arch the ruler as needed on model. (10 per pack) • 120-022

Model Storage Boxes

Designed to accommodate 4 sets of models for safe storage. Strong corrugated white cardboard. 10" x 6" x 2". (50 per pack)

• 610-070

(Shipped flat/assembly required. Approx. 25 lbs.)

Accumark™ Disposable Markers and Dispenser

Time-saving disposable markers are sturdy wooden dowels with coated red wax tips. Coloured tip allows clinician to accurately mark dry metal surfaces for superior visibility. Markers and chairside dispenser are sold separately.

100 Markers • 610-080

Dispenser • 610-082

Tracing Light Box

Portable viewer can be used on table, desk or hangs on wall. Metal clips keep film and tracing paper firmly in place. Stays cool during use. Excellent for x-ray viewing and tracing. Silver trimmed steel edge with all metal construction and heavy duty switch. (View area: 11" x 10-1/2" Overall size: 12" x 11-1/2") 110v A.C. • 300-013

Tracing Paper

Smooth matte surface and near transparency gives extra sharp lines when tracing radio-graphs. Uniformly cut in 8" x 10" sheets. (Padded 100 sheets/pad) • 630-020
