

World Class Orthodontics!

SPACE MAINTAINERS[®]
LABORATORIES CANADA

Whether you need removable appliances, retainers, fixed appliances, functional appliances, bleaching trays, snoring/OSA appliances or splints and mouthguards, Space Maintainers is your Orthodontic Specialist.

Outstanding Quality

Every case is constructed using only the best in stainless steel wire (all custom bent – no performed wires) and acrylics plus hundreds of additional sophisticated components and materials from around the world. We stock complete bracket systems for all major appliance designs. All appliances are finished to a high “jewellery lustre”. At Space Maintainers, your case is always right – the first time!

On-Target Technical Expertise

For more than 25 years, Space Maintainers has been on the leading edge of orthodontic technology. We continually develop and enhance the knowledge and skills of our technicians and support staff through one of the most comprehensive and rigorous continuing education and training programs in the world.

Keeping You On The Leading Edge

Space Maintainers also offers an extensive Continuing Education program for the dental practitioner. Take advantage of our independent learning courses and seminars with leading clinicians for CE Credit on all aspects of appliance therapy. Choose from our broad range of

manuals, videos and clinical instruction materials on Snoring and Sleep Apnea or Sports Dentistry. Utilize our patient education literature to help you promote and apply these new technologies.

Specialized Team Approach

Integrated Space Maintainer teams work with each system or technique, creating an unsurpassed body of knowledge and level of specific technical expertise. For example, our outstanding Splint Department is staffed with experienced and creative technical specialists – well versed in the complete range of today's splint techniques. Our team approach allows us to better understand your individual preferences, techniques and style through direct communication.

Full Orthodontic, Orthopaedic and Paediatric Capabilities

At Space Maintainers, we are your complete orthodontic source. Talk to us about:

- Computerized Cephalometric Tracing and Analysis
- Study Model Services
- Diagnostic Model Set-ups
- Positioners
- Teaching/Demonstration Models and Appliances (with Presentation Boxes)
- Indirect Bracketing Services

The Best in Personal Service

Rely on Space Maintainers for outstanding personal service – every day, on every case. We include a strong, convenient appliance box with every

removable device. We place the doctor and patient's names in acrylic appliances, on request, to assist in identifying lost appliances and build new patient referrals. All Free of Charge.

Fast, Reliable Delivery

Space Maintainers extensive Free pick-up and delivery service gets your case to us and back to you in record time. No matter how quickly you need an appliance, we maintain our high standards of professional craftsmanship – and still meet your deadline. You can rest assured that each case, whether “rush” or with normal turnaround time, receives the same high standard of individual attention.

100% Guaranteed

All work completed by Space Maintainers is fully guaranteed for 90 days against defective materials and craftsmanship. And, with our Insurance Program, you can offer your patients **extended coverage for One Calendar Year** at a nominal additional fee.

Put Us To The Test!

At Space Maintainers, we meet your greatest expectations – with exceptional products, created from the best materials, backed up by consistent and reliable service. Contact us today for more information on how our experience and expertise can provide your patients with unsurpassed orthodontic results.
