Partnering With You For Success!

Communication Aids/Tools from Aurum Ceramic/Classic

Clear Communication – Exclusively from Aurum Ceramic/Classic

Aurum Ceramic/Classic is pleased to offer you an array of carefully developed aids and tools that help to trap crucial aspects of the case; provide critical tips on shades; preparation and cementation/bonding; or allow the patient to experience their new smiles well before the actual restorations are placed. The following outlines the various components available – providing a clear blueprint for dentist-to-patient and dentist-to-technician communication.

Build Your Practice with Aurum Ceramic/Classic

For more information on any of the communication components outlined, call your closest Aurum Ceramic/Classic laboratory.

Dentist – Technician Communication Checklists

- Series of six different, easy to manage checklists:
 - *Diagnostic Wax-up & Treatment Planning.*
 - *Comprehensive Smile Design.*
 - *Advanced Cosmetic Smile Design (10 units or less).*
 - *Full Mouth Reconstruction.*
 - *Managing The Bite.*
 - *Implant Treatment Planning.*
- Available FREE¹ in convenient pads with your next case.

ACCES™ (Advanced Cosmetic Communication and Esthetic System)

Three-Dimensional Communication Tools

Prep Indices

- Provides four “views”:
 - *Incisal Reduction.*
 - *Labial Prep Guide sectioned in 3 planes (gingival, body, incisal).*

Bite Stents

- Maintains correct vertical and anterior/posterior position of the lower arch.

Temporary Stents

- Allows quick fabrication of outstanding in-office temporaries – within ten (10) minutes!

The Diagnostic Wax-up

Powerful Patient Communication

- Natural-looking, three-dimensional representation of final case.
- Dramatically increases treatment acceptance rates.
