Complete Orthodontics Records Package!

Transform a simple cephalometric film and set of models into a wealth of valuable, accurate diagnostic information with a Complete Orthodontics Records Package prepared by Space Maintainers Laboratories Canada!

Includes all the documentation you need for each case at a reasonable fee:

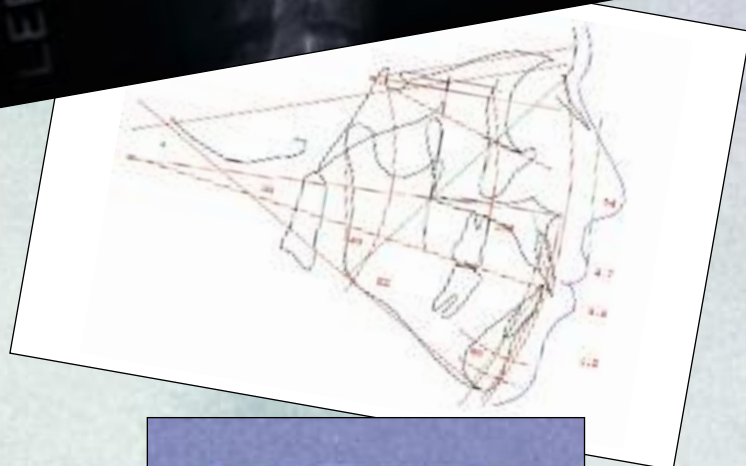

- Computer-generated full-colour Cephalometric Tracing (clear, clean and crisp)
- Comprehensive Cephalometric Analysis Sheet (the information you need for case diagnosis)
- Orthodontic Study Models (hand-sculpted and polished to meet the highest quality requirements)
- Individualized Patient Folder (suitable for case presentation)
- Include a Schwartz or Mixed Dentition Model Analysis if desired (nominal additional fee applies)

Accurate, organized and easy-to-understand format

- Eliminate tedious hours tracing x-rays, pouring and trimming models and searching for records.
- Utilize the type of analysis you prefer (e.g., Sussouni Plus, Gerety, modified Steiner and many more).
- Provides for today's essential dental/legal requirements.
- Highest quality records at a very cost-effective price.

Study models that accurately reflect the beauty of your work

- Created by our expertly trained staff from high quality orthodontic stone.
- All minor air bubbles and chipped teeth repaired.
- Meticulously detailed. Carved, soaped and polished to a high gloss.
- Bases hand trimmed to specific angles.
- Individually labelled for each patient.
