Join us for our latest informative seminar:
Treatment Planning & Restoring the Single Posterior Dental Implant

Presented by Dr. Frederick Li

Dr. Frederick Li
Dr. Frederick Li graduated from the University of Manitoba College of Dentistry. Desiring to further his dental education and experience, Dr. Li moved to New York City and completed two years of dental residency in hospital facilities associated with Cornell Medical Center and Columbia University. Dental implantology was a focal component of the postgraduate training, enabling Dr. Li to gain surgical implant experience from some of the top implant surgeons and prosthodontists in the Greater New York Region.

Dr. Li is also a graduate of the Misch Implant Institute and was awarded a fellowship by the International Congress of Oral Implantologists. A general practitioner with a large volume of surgical and prosthetic dental implants, Dr. Li is in private practice in Vancouver. As a mentor for Nobel Biocare, Dr. Li gives implant prosthetic and surgical courses. He also mentors four surgical implant study clubs.

ADA CERP®
Centrally Educated Recognition Program

Aurum Ceramic / Classic Dental / Space Maintainers Laboratories is an ADA CERP Recognized Provider

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education.

ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Aurum Ceramic designates this activity for 6 credits (3 credits per session) towards continuing education.
